01 Why This Guide Matters

What is the NFQ?

The **National Framework of Qualifications (NFQ)** is Ireland's official system for recognising and comparing all education and training qualifications. It includes everything from Junior Cert (Level 3) to Doctorates (Level 10). Each qualification is placed on a specific **level (1-10)** based on what a learner knows, understands and can do after completing it.

QUALIFICATION

An apprenticeship can lead to a **Level 5,6,7,8.**

HIGHER EDUCATION

You can progress to **further or higher** education after your apprenticeship

RECOGNISED

Recognised training across Europe, thanks to NFQ alignment with the **European Qualifications Framework - EQF.**

02 Why It's Important

Traditionally, apprentices were seen as “alternative” routes to careers. Today, they’re fully embedded with the NFQ, giving them **equal status to college and university qualifications.** Whether you’re just starting out or retraining, the NFQ ensures your learning counts, no matter how or where you achieve it

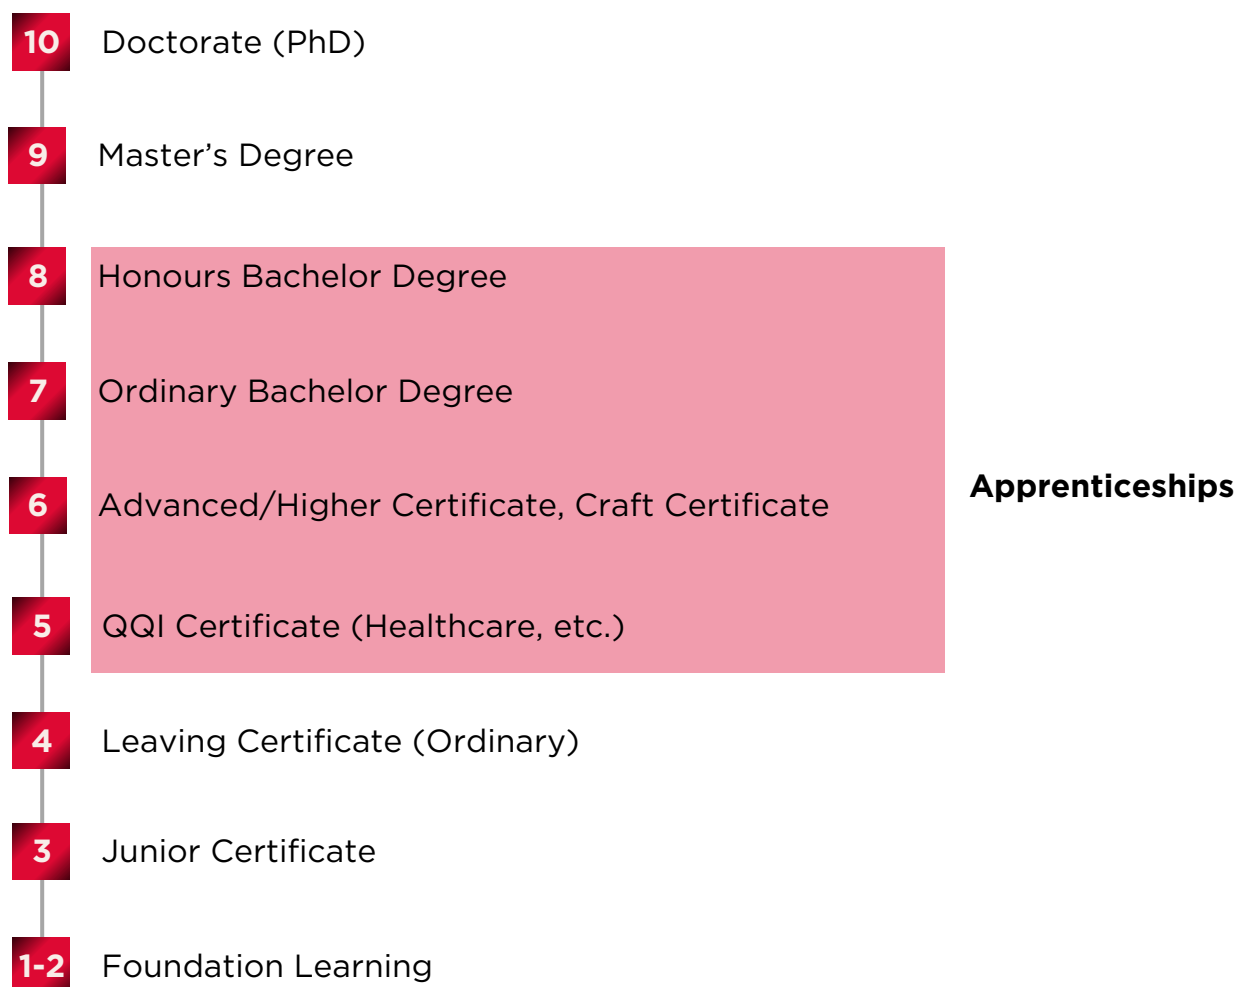

What is the NFQ?

The **NFQ** is Ireland's 10-level that classifies all qualifications, from school-leavers to PhDs, based on learning outcomes and progression potential. Whether you're in school, on an apprenticeship or at university, your qualification has a place on the scale.

IT CLARIFIES:

-  Learners understand **where they are** and where they can go next
-  Employers assess qualifications **fairly and clearly**
-  Education providers across Europe **compare credentials** (via the EQF)

THE NFQ LADDER

Apprenticeships usually start at **Level 5 or 6**, but some go all the way to **Level 8!**

That means apprentices can gain the **same qualifications as college or university students**, while learning on the job and earning a wage.

APPRENTICESHIPS USUALLY START AT LEVEL 5 OR 6, BUT SOME GO ALL THE WAY TO LEVEL 8

Apprenticeships = Real Qualifications

Today's apprenticeships aren't limited to traditional trades, they cover healthcare, tech, finance, logistics and more. Best of all? They lead to **nationally recognised qualifications** between **NFQ Levels 5-8**.

Apprenticeship Examples by QQI Levels

Level 5 Healthcare Support

**QQI Level 5
Certificate in
Healthcare Support**
2 Years

Leads to Healthcare Assistant
with progression to Nursing
(NFQ Level 8)

Delivered by ETBs, Private
Nursing Homes

Consortium led

Level 6 Electrical Apprenticeship

**National Craft
Certificate
(SOLAS)**
4 Years

Leads Qualified Electrician,
Site Supervisor, Contractor

Delivered by SOLAS-
approved employers

Traditional Craft

Level 7 Insurance Practice

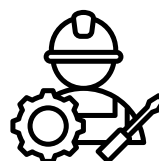

**Ordinary Degree in
Insurance Practice**
3 Years blended
Learning

Leads Claims Specialist,
Underwriter, Broker

Delivered by IT Sligo (now
ATU), Insurance Institute

Professional Apprenticeship

Level 8 Engineering Technician

**Bachelor of
Engineering
(Honours)**
4 Years

Leads to Mechanical
Technician, Process Engineer

Delivered by TU Dublin, OEM
Industry Group

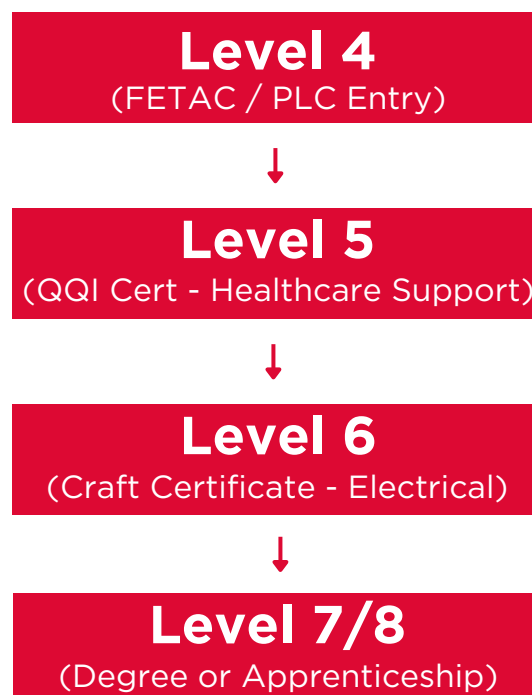

Advanced Apprenticeship

**There are now over 70+ apprenticeships available
in Ireland, with more being developed each year**

Pathways, Comparisons & Next Steps

How Can I Progress Through the NFAQ with an Apprenticeship

Apprenticeships aren't a dead end, they're a launch pad. You can move up, across or even return to education later in your career

How Do They Compare To Other Routes?

Apprenticeships offer **the same level of qualifications** as full-time college, with the added benefit of **earning while you learn** and gaining hands-on work experience

Route	NFAQ Level(s)	Example Qualification
Leaving Certificate	4-5	Established Leaving Cert
PLC-Course	5-6	Childcare. Business etc.
Apprenticeship	5-8	Craft Cert (L6), Degree (L7/8)
College / University	6-8	Higher Certificate BA/BSc, Honours Degree

Still Have Questions?

We've Got The Answers!

Here are 6 clear, helpful and commonly asked questions that address concerns from learners, parents and career changers:

1. CAN I GO TO COLLEGE AFTER AN APPRENTICESHIP?

- ✓ Yes! Most apprenticeships are mapped to the NFQ, so you can progress to further or higher education (especially from Level 5/6 to Level 7/8)

2. WILL EMPLOYERS RECOGNISE MY QUALIFICATION?

- ✓ Absolutely. Apprenticeships are approved by QQI, SOLAS and industry bodies, so they're nationally and internationally recognised

3. WHAT IF I WANT TO SWITCH CAREERS LATER?

- ✓ You can. Many apprenticeships build transferable skills and open up pathways to other industries through work experience or further study

4. HOW MUCH DOES IT COST?

- ✓ Most apprenticeships are free and you'll earn while you learn. Some programmes may have minor material or registration fees

5. WHO CAN APPLY FOR AN APPRENTICESHIP?

- ✓ Anyone over 16 with the right entry requirements. Some require a Leaving Cert, others accept PLCs, QQI Level 4/5 or relevant experience

Ask us! At Crewit, we want to make the process as easy as possible. Send us your inquiries no matter how big or small.

We are happy to make it happen!
